

**Are you a property owner within the Project Study Area
who wants to support the effort to address our wastewater problems?**

If you have not already done so, please complete the property owner petition and survey.
Your voice is important!

-

The Petition:

Please complete the petition located on our FAQs page. The EIR is a critical next step in our process to consider solutions for our wastewater issues, and the potential impacts of the alternatives being considered. Your support for the EIR is important.

Your Contribution:

The EIR is estimated to cost \$200,000. We anticipate that the EIR will receive grant funding, but most grants require a local match, to demonstrate local support for the project. Many property owners have contributed, and we hope you will join us. Your contribution will help provide that critical local funding and it is essential that you contribute if you support the project! Your contribution will be managed by the WFWG co-treasurers, Maya Gladstern and Catherine McQuilkin, and will be spent on 1) the EIR, and 2) postage and materials for mailings and a modest website. If we are unsuccessful in funding or carrying out an EIR, all contributions will be returned, minus any expenditures.

The Survey:

The survey will be confidential, and reviewed by WFWG members only. Your input now will help us to gauge several important factors. Firstly it will give a sense of the number of possible participants, and will help determine an approximate geographical area of participating homes, which is important in carrying out the EIR as well as understanding the feasibility of the project.

*Petition and Survey regarding the Woodacre/San Geronimo Flats
Wastewater Project*

For San Geronimo and Woodacre Flats residents

Petition

Yes, I support the proposed Environmental Impact Report (EIR) process as the next step in the community's consideration of a wastewater project to address failing and substandard septic systems. I respectfully request the assistance of the County of Marin and other public agencies in undertaking and helping to fund the EIR.

Name Property Address email phone number

_____ Yes, I will make a financial contribution towards the EIR (\$350 is recommended). Please make your check out to: THE WOODACRE/SAN GERONIMO FLATS WASTEWATER PROJECT and mail it to the address below ASAP.

Survey

Are you interested in having your property included in the project at its inception, so that you can take advantage of grants and loan opportunities that are anticipated to be available at the beginning of the project? _____ Yes _____ No

If not, would you like your property to be included in the project area, but not hook it up at project inception, so that you retain your right to hook it up at a later date (at full cost)?

We welcome your comments or suggestions: _____
